

IEEE CCECE 2027 Tutorial Proposal Template

Maximum of 5 pages, submitted as a single PDF.

1. Title and Abstract

- Tutorial Title:

[Insert title here].

- Abstract:

[Insert a brief abstract of approximately 200–300 words].

2. Objectives, Motivation, and Intended Audience

- Learning Objectives:

[Describe the learning objectives and expected outcomes].

- Motivation:

[Explain the motivation and relevance to the CCECE 2027 community].

- Audience:

[Identify the target audience and assumed background knowledge].

3. Tutorial Content and Scope

- Topic Description:

[Provide a detailed description of the topics to be covered].

- Significance:

[Include a discussion of the timeliness, novelty, and significance of the topic].

- Expected Benefits:

[Outline the expected benefits for researchers, practitioners, and students].

4. Tutorial Outline

- Format:

[Specify if this is for a half-day or full-day tutorial].

- Agenda:

[Provide a detailed agenda and schedule].

- Section Breakdown:

[Include a breakdown of tutorial sections and allocated time].

- Presenters per Section:

[Provide the identification of the presenter(s) for each section].

5. Presenter Information

- Contact Details:

[List the names, affiliations, and contact information of all presenters].

- Biographies:

[Include short biographies highlighting expertise and accomplishments related to the tutorial topic].

6. Experience and Qualifications

- Relevant Experience:

[Provide a description of the presenters' research, industrial, or professional experience relevant to the tutorial topic].

- Evidence of Expertise:

[List evidence of expertise, including key publications, projects, patents, standards contributions, or other relevant achievements].

7. Previous Tutorial Experience

- Prior Presentations:

[Provide a summary of prior tutorial presentations by the speakers].

- Previous Offerings:

[Include information on previous offerings of the proposed tutorial, if applicable, including venue, date, and attendance].
